1. Project Expo :

Fun and educational project expo where groups of 2-4 members will demonstrate their hobby projects to guests. variety of creative and innovative projects, and learn something new from the talented students who made them.

2. Debate :

Thrilling Debate Competition - where intellect meets eloquence. Sharpen your argumentative skills, articulate your ideas, and compete for the coveted title. Unleash the power of words in a battle of wits.

A debate is a discussion or structured contest about an issue or a resolution. A formal debate involves two sides: one supporting a resolution and one opposing it. Such a debate is bound by rules previously agreed upon. Debates may be judged in order to declare a winning side.

3. Aptitude and Technical Quiz :

A Technical Aptitude Test is designed to gauge a candidate's skills, knowledge, and abilities in specific technical areas or domains. It evaluates the applicant's ability to comprehend and utilize technical concepts, apply problem-solving and analytical thinking skills, and demonstrate expertise in a particular field.

4. Line Followers :

The line-following competition is one of the most popular robotics competitions in the world, and Robotex is hosting it for the sixth time. In a line-following competition, the robots are tasked with completing a track marked with a black line on the field as quickly as possible. The line follower robot is a mobile machine that can detect and follow the line drawn on the floor. Generally, the path is predefined and can be either visible like a black line on a white surface with a high contrasted color or it can be invisible like a magnetic field.

5. Code Craft :

Competitive coding is a type of programming contest in which participants attempt to solve problems using code. These problems can range in difficulty, but they are typically designed to challenge a programmer's problem-solving and coding skills. Competitive programming is a sport where contestants solve algorithmic problems within a time limit using a programming language of their choice. It tests problem-solving skills, knowledge of algorithms, and ability to write efficient code.

6. Mock Interview :

Elevate's your confidence with our Mock Interview session, designed to prepare placement students for the real deal. Experienced a simulated interview environment where you'll face questions as if in a real interview.

It involves a structured interaction between an interviewer and an interviewee, typically with the goal of helping the interviewee improve their interviewing skills and gain confidence in their ability to perform well in actual job interviews.

7. Poster Designing :

Witness your creations shine as they are exhibited and evaluated. Cash prizes await the most innovative designs. Poster competitions raise awareness of issues and participation programs. Posters provide visual, colourful, simple ways to communicate community issues and events, and are suitable for display in community spaces.

8. Picometry :

Pictures speak a thousand words, and now it's your turn to bring them to life. unique event where displayed pictures become the canvas for your creativity. Start with a summary, giving a general description of what's in the picture and what you can see.

9. BGMI :

Esports short for electronic sports, is a form of competition using video games. Esports often takes the form of organized, multiplayer video game competitions, particularly between professional players, individually or as teams.

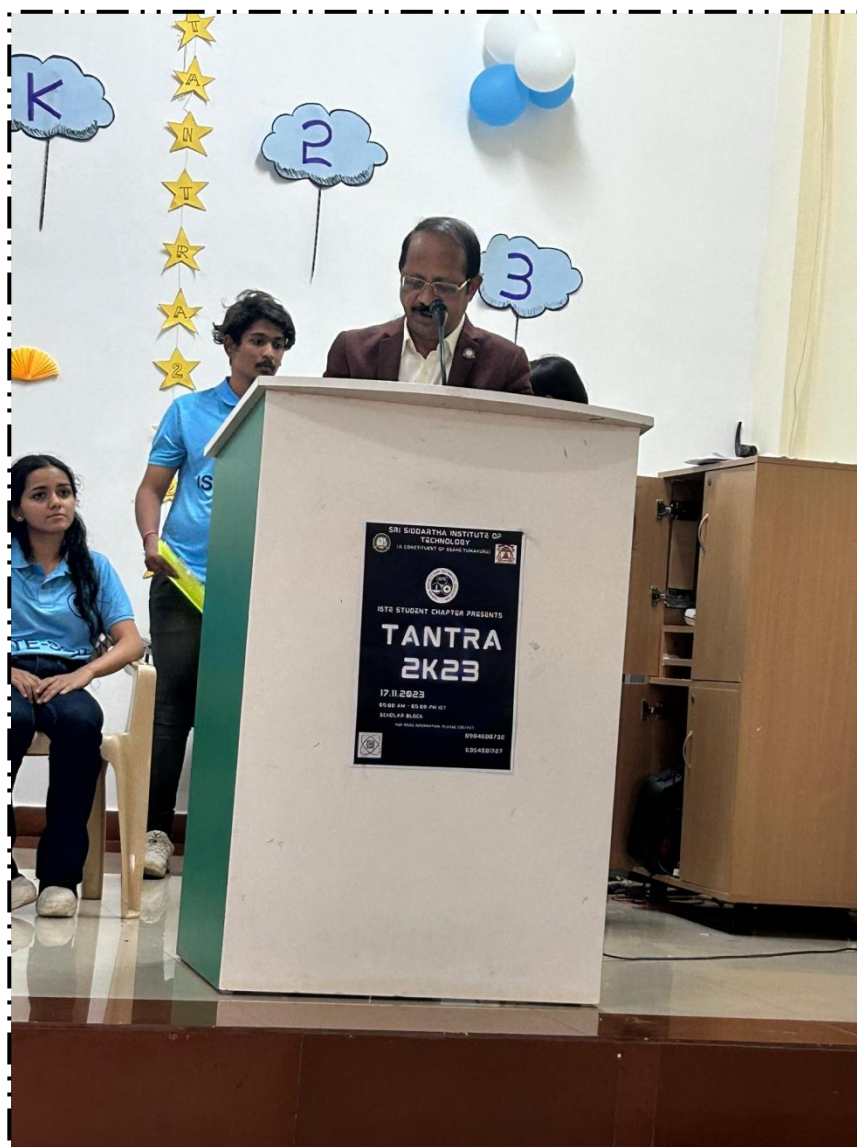

A video game tournament is a competition where players compete against each other to determine who is the best at playing a particular video game. Tournaments can be held online or in person, and can be organized by game developers, esports teams, or other organizations.

10. Treasure Hunt :

Treasure hunt, the idea of hunting for hidden treasures has always been exciting and adventurous. In treasure hunt, participants work in small teams to find the treasure with the help of given clues. The team who decodes the clue and finds the treasure first will win the game. a game in which each person or team attempts to be first in finding something that has been hidden, using written directions or clues.
